Journal of Epidemiology and Community Health 1990; **44**: 333–335

Index to volume 44, 1990

ABO blood group and social class, prospective study in regional blood bank, **59**
Abortion, induced, as cancer risk factor, review of epidemiological evidence: review article, **259**
—— spontaneous, in general population, questionnaires use in study, **202**
Adelaide children, acute respiratory illness, breast feeding modifies effect of passive smoking, **224**
Adulthood ill health, and childhood morbidity, **69**
AIDS epidemiology: commentary on current issues, **81**
Air pollution and cause specific mortality, Athens, **321**
Airborne occupational exposure, non-response to postal survey, consequences, Norway, **316**
ALAM, H., *see* BUNDEY, S. *et al.*
Alcohol use before and during pregnancy, fetal effect, **297**
—— use in pregnancy, craniofacial features, and fetus growth, **302**
